Dear Title Board,

Please ensure the language of the initiative, most importantly the title, clearly acknowledge the refund is taxpayer money that otherwise would be returned to the taxpayers. The words excess revenue simply are not clear enough. There is precedent for the inclusion of precise language regarding these refund issues, as a similar initiative went through the Title Board in 2022.

Also, the initiative must include a preamble in all capitals that clearly states this measure would, effectively, raise taxes.

Thank you,

Trish Leone
